

Jr. Software Developer - Python

Playo is a 1-stop platform for sports that connects sports enthusiasts, facilities, academies, organizers and brands. Launched by IIM and CISCO alumni in May 2015, we are mobile-first with Android and iOS apps and approx 1.5 mn users. We are maniacal about our product and user experience which is reflective of the 4.6+ ratings on the App Store coupled with insanely high repeat usage. Live in India, UAE and Qatar, our aim is to build a first of its kind sports connect platform for the world...proudly and humbly - Made in India.

Roles and Responsibilities:

- Design and implementation of internal tools used by ops, support, tech and finance team
- Write integrations with third-parties APIs and services
- Writing reusable, testable, secure, and efficient code

Requirements:

- 1+ year of relevant experience
- Programming Knowledge with Python frameworks (e.g. Django, Flask)
- Working experience with RDBMS and Mysql
- Good understanding of REST API Development and HTTP Methods
- Exposure to front-end technologies like HTML, Javascript, CSS etc
- Strong problem solving and analytical skills

Next Steps:

Believe you have what it takes to join us on the playfield? Then, drop us a line on careers@playo.co along with your resume. Please highlight your motivation for this role as well as your qualifications/skills to convince us that you're the best person to take the field for this position. Shortlisted candidates will be suitably grilled for tech skills and culture fit :)

Also, please do check out our app at www.playo.co/download, before you reach out to us – we would absolutely love some fresh ideas and critique.
