Jr. iOS Developer

Playo is a 1-stop platform for sports that connects sports enthusiasts, facilities, academies, organizers and brands. Launched by IIM and CISCO alumni in May 2015, we are mobile-first with Android and iOS apps and approx 1.5 mn users. We are maniacal about our product and user experience which is reflective of the 4.6+ ratings on the App Store coupled with insanely high repeat usage. Live in India, UAE and Qatar, our aim is to build a first of its kind sports connect platform for the world...proudly and humbly - Made in India.

Roles and Responsibilities:
- Develop and maintain features for Playo's iOS App
- Work closely with the Senior Developers, Product, UX/UI and Back-end teams to design, build and extend consumer platforms and features

Requirements:

- Minimum 1 years of experience building iOS apps.
- Programming knowledge in Swift.
- Used RESTful APIs any project
- Can construct UI using XIB, storyboard or SwiftUI
- Knowledge of delegates, protocols, notifications and application life-cycle
- Strong problem solving and analytical skills

Good to Have:

- Knowledgeable in RXSwift
- Have working knowledge of architecture like MVC, MVVM etc.
- Can write unit test cases
- Staying up-to-date with the latest trends in iOS.
- Contributions to open-source are a big plus.

Next Steps:

Believe you have what it takes to join us on the playfield? Then, drop us a line on careers@playo.co along with your resume. Please highlight your motivation for this role as well as your qualifications/skills to convince us that you're the best person to take the field for this position. Shortlisted candidates will be suitably grilled for tech skills and culture fit :)

Also, please do check out our app at www.playo.co/download, before you reach out to us – we would absolutely love some fresh ideas and critique.
